

Working Together: Regional Partnerships for Climate-Resilient Cities

From Commitment to Action: Supporting the Declaration for Green Mobility

- Milenka Pantelić, WB Adapt, Declaration for Green Mobility, 6.10.1016.

A photograph of a train moving from right to left across the frame. The scene is set at sunset, with a bright orange sun on the left side of the image. In the background, a city skyline is visible against the orange sky. In the foreground, there are black lampposts with two glowing orange lights each. The train is blurred, suggesting motion, and its windows reflect the bright orange light of the sunset.

NEXT STOP: THE WESTERN BALKANS

A journey towards climate-resilient and sustainable urban mobility

Transport and Climate Change Week **#TransportWeek26**

HOW WE STARTED - SUMP Boot Camp - 2019

**28 SUMP/SUM
solutions**
- 60 permanent
or soft EMW
actions
- 46 pilot
projects
- 20 policy
papers, studies

MOVING FORWARD TOGETHER: TOWARDS A GREEN MOBILITY

Transport Community Treaty Secretariat

- **Green Mobility Summit 2024** (joint event)
- **Endorsement of the Declaration for Urban Mobility, Clean Bus and Clean Fleet, Cycling Declaration** during Green Mobility Summit
- Clean Bus and Clean Fleet Modus Operandi
- **Clean Bus and Clean Fleet online Platform**
- Capacity building sessions for establishment of the national focal points for SUM, TEN-T and Clean Bus, Clean Fleet
- Establishment of the Sectoral Working Group on SUM and climate resilience (consist of national and local authorities)
- **Policy Framework and Roadmap for Integrated Sustainable Urban Mobility for the Western Balkans, adopted by 6 Western Balkans Transport Ministers.**

Policy Framework and Roadmap for Integrated Sustainable Urban Mobility for the Western Balkans

CIVINET Slovenia-Croatia-SEE

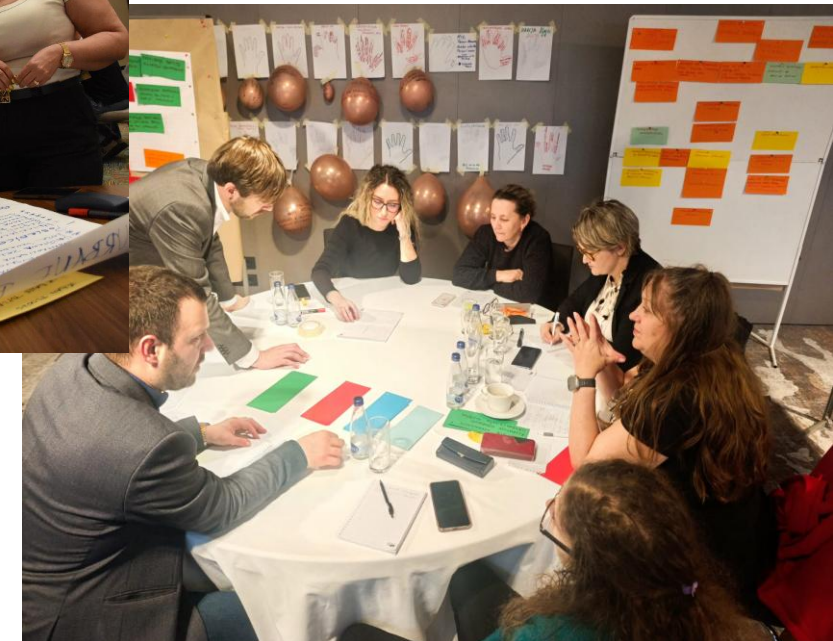

- Coordination and replication of EU best practices
- Regional exchanges and capacity-building sessions
- Climate-Resilient SUM Academy
- Development of SUMP templates adapted to the WB6 context, in line with the third edition of the SUMP methodology and the TEN-T Regulation
- Support for the organisation of European Mobility Week (EMW) programs, with contributions from the EMW Campaign Manager and practical, interactive on-site sessions
- Capacity-Building Workshops for Media Representatives on EMW and SUM
- Advisory support for the implementation of pilot projects

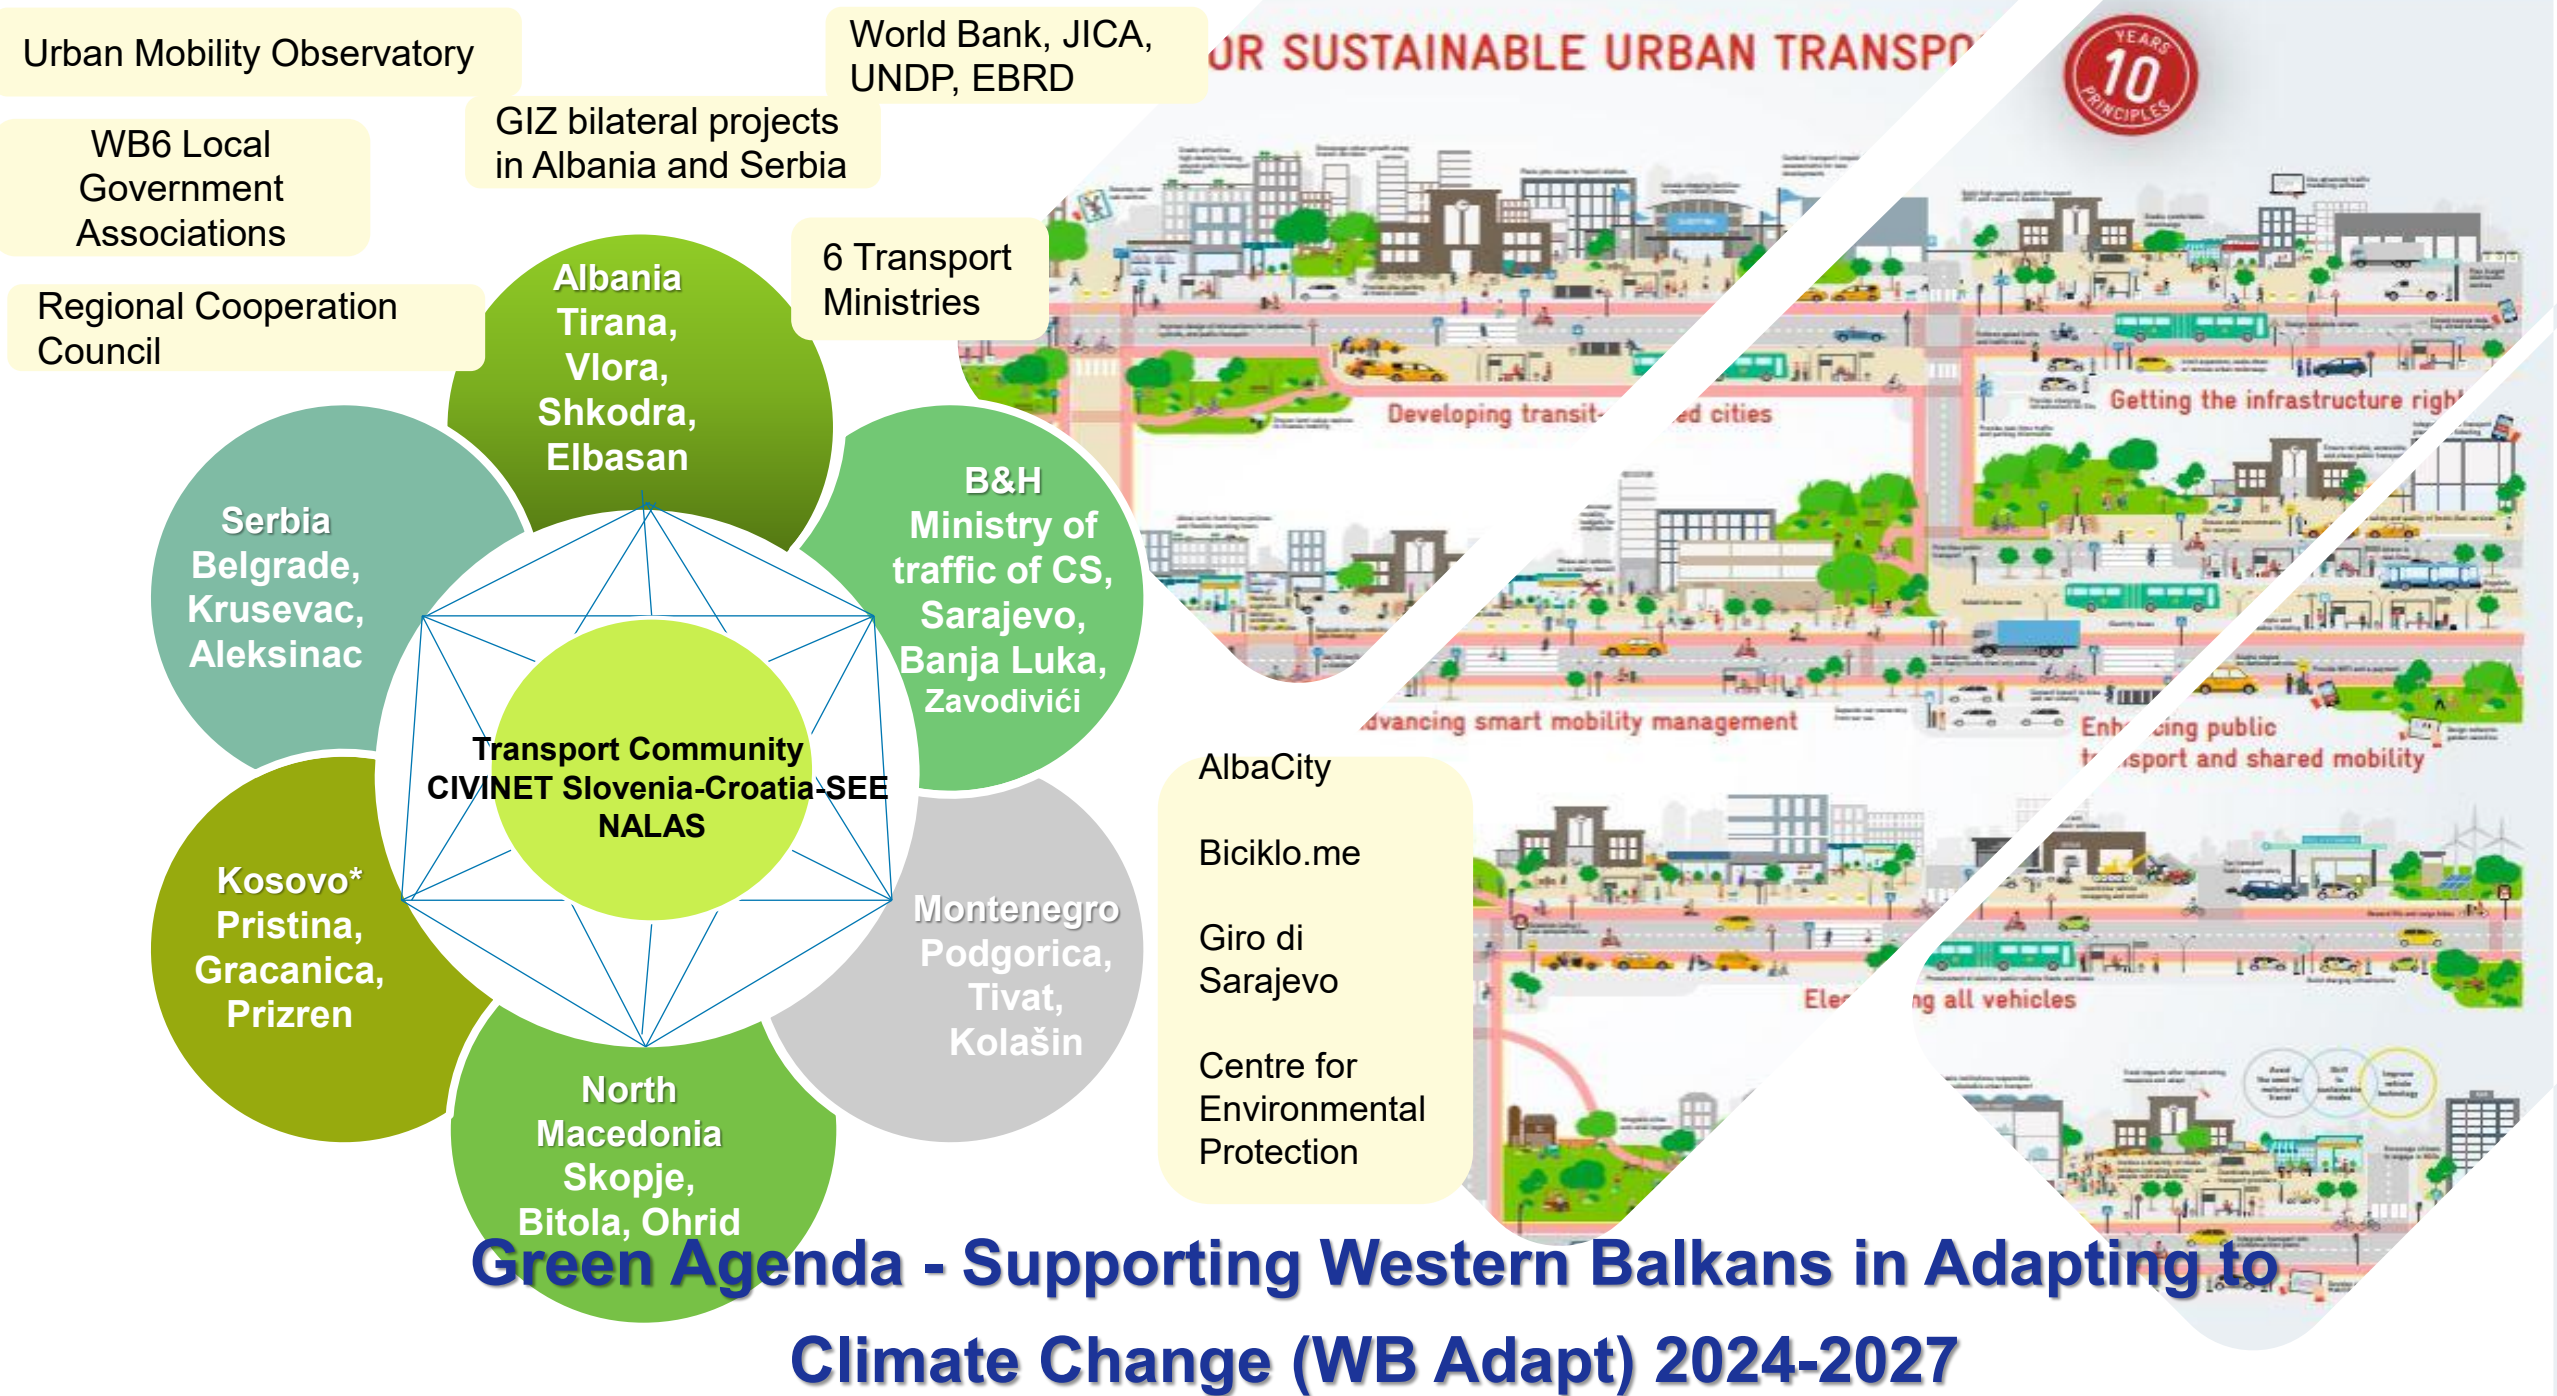

NALAS - Network of associations of local authorities of South-East Europe

- Improved regional cooperation and coordination among Local Government Associations
- Enhanced regional expertise and cooperation through the establishment of the NALAS SUM and Climate Resilience Expert Group
- Enhanced capacities for project development and mobilisation of funds
- Increased knowledge and capacities on climate-resilient sustainable urban mobility through the E-learning Academy

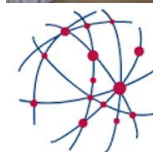

Study for Climate Change Adaptation in Urban Transport –Pristina (Kosovo), Tirana (Albania), Shkodra (Albania)

Climate Resilient Traffic Infrastructure Study – Sarajevo, Bosnia and Herzegovina

GI:DRM
Global Initiative on
Disaster Risk Management

UNU

Institutionalisation of Climate Resilient Sustainable Urban Mobility

Strengthened SUM organisational structures, including updated organisational rules, job descriptions, and communication and coordination mechanisms across relevant departments and local and national institutions.
